

Chibuzor Ejimofor

Estimator - Project Manager - Chemical Engineer - Process Engineer

Scottsdale, AZ 85251 | +1 304 216 8700 | chibuzor.ejimofor@gmail.com

Professional Summary

Skilled Project Manager with 8 years of experience in within the construction, biotechnology and manufacturing sectors. Proven track record in managing multimillion-dollar projects, including \$50 million in lab equipment installations. Expertise in managing teams in-person/remote, developing automation tools, and managing customer relationships end to end from proposal/estimate to project delivery.

Willing to relocate: Anywhere

Work Experience

Construction Project Manager

Weigh Anchor | Scottsdale, AZ

April 2022 to Present

- Drafting proposals for government contracts
- Managing construction projects from initiation to completion, ensuring adherence to project timelines, budgets, and quality standards
- Collaborating with architects, engineers, contractors, and subcontractors to develop project plans and specifications
- Monitoring project progress regularly, identifying potential risks or issues and implementing proactive solutions
- Coordinating procurement of materials and equipment necessary for each phase of the construction process
- Creating estimates for private sector RFPs based on construction drawings (SWPPP, fencing, permits)
- Applying and managing government permits end to end (CGP, NOI, SWPPP, etc.)

Project Manager

Seagen | Seattle, WA

November 2019 to March 2022

Client: Seattle Genetics (Seagen)

- Day-to-day management of the planning, engineering, construction, and handover aspects of the projects and all associated deliverables
- Actively managed \$50 million in lab equipment installation projects across 30 projects with 50 million in equipment closed.
- Managed all contractor activity for \$2 million warehouse renovation including city permit prep and submittal
- Evaluated biotechnology equipment specifications for purchase based on client need
- Coordinated activities related to the application for and approval of statutory local authority planning approvals required for the project

Project Manager **Evoqua Water Technologies**

June 2018 to November 2019

Facilities - Manufacturing || Boston, MA

- Developed a production scheduling tool to reduce in-process WIP
- Supervised first shift of the continuous deionization (CDI) product line with 20 direct reports
- Used AutoCAD Inventor to design and build a testing stand to increase rotameter part quality

Fulfillment || Colorado Springs, CO

- Managed 5.5 Million in internal asset builds across three projects
- Coordinated activity between Sales, Applications Engineering, Supply Chain, and Site Execution
- Maintained customer relationships by communicating project expectations to relevant stakeholders
- Utilized Microsoft Project, SharePoint, and SAP to ensure required resources are in place

Project Engineer Intern **General Electric Aviation**

May 2015 to August 2017

Manufacturing Operations Intern Co-Op || Rutland, VT, USA

- Optimized chemical introduction in a closed-loop system resulting in a 25% increase in efficiency
- Wrote engineering scope of work for piping re-design of an electrolyte treatment system
- Managed competitive bid process towards recycling waste resulting in 36K USD revenue & 1.1K ton waste reduction per year

Environmental Health and Safety Co-Op || Greenville, SC, USA

- Created 20 noise abatement projects and managed them to close resulting in 50K/year cost avoidance
- Managed competitive bid process based on competitive market analysis for noise paneling project resulting in 89K USD cost avoidance per year
- Investigated and closed 20+ safety concern reports to maintain safety compliance
- Conducted multiple Environmental Health and Safety training for on-site staff

Facilities - Environmental Health and Safety Co-Op || Cincinnati, OH, USA

- Managed competitive & sole-source bids for water tank repair and swale ditch cleaning projects
- Developed and maintained a network of key opinion leaders (KOL) for each GE Aviation site
- Conducted multiple pieces of training on utilization of new eco project submissions site
- Managed 6M USD eco fund resulting in ~23K metric tons reduction and 2M USD cost savings per year

Environmental Health and Safety Co-Op || Middle River, MD, USA

- Investigated and closed 100+ safety concern reports to maintain safety compliance
- Managed competitive bid process for dock improvement projects resulting in 40K USD savings per year
- Updated the company respiratory protection program which included over 400 investigations

Infrastructure - Wastewater Treatment Intern

DOW | Charleston, WV

May 2014 to August 2014

- Solicited quotes for sludge dewatering system, tank aeration system, and clarifier repair
- Wrote confined space entry and lock-out-tag-out procedures for 15 pieces of equipment
- Wrote fire safety strategies for both West Virginia Ops wastewater treatment plants
- Validated storage tank secondary containment compliance with WV Code

Education

Chemical Engineering (Bachelor's)

West Virginia University | Morgantown, WV

August 2012 to May 2018
