EDUCATION

West Virginia University, Morgantown, WV, USA
Bachelor of Science, Chemical Engineering

May 2018

PROFESSIONAL EXPERIENCE

Weigh Anchor, Remote

March 2022 - Current

Project Manager – Automation

- Identified and pursued government contract opportunities aligned with organizational capabilities
- Led development of website and AI tools for document generation and process automation
- Integrated systems using Microsoft Power Automate, Zapier, and various APIs
- Managed lab equipment installations for Pfizer across 20 concurrent projects
- Coordinated cross-functional teams to ensure timely project deliverables

English Teacher, Las Vegas, NV, USA

May 2022 – February 2023

English Teacher

- Instructed English courses to adult learners across all proficiency levels in classes of 15-20 students
- Developed engaging lesson plans, administered assessments, and evaluated student performance
- Facilitated immersive language learning experiences to maximize student engagement

Seattle Genetics (Seagen), Seattle, WA, USA

February 2021 – March 2022

Construction Project Manager

- Oversaw day-to-day planning, engineering, and construction management for multiple projects
- Successfully managed \$50 million in laboratory equipment installation across 30 projects
- Led contractor activities for a \$2 million warehouse renovation, including municipal permitting
- Evaluated biotechnology equipment specifications for procurement based on client requirements
- Coordinated regulatory approval processes with local authorities for project advancement

KnowledgeCity Inc., Remote

November 2021 – February 2022

Project Manager

- **Prioritized and resolved incoming IT technical support tickets according to urgency and complexity**
- Executed database queries and managed external client profiles
- Maintained efficient technical support workflow to ensure timely resolution of client issues

Liden & Denz, Moscow, Russia

December 2019 – December 2020

Native English Teacher

- Developed comprehensive English curriculum lesson plans aligned with organizational objectives
- Taught English from Pre-intermediate to Advanced levels to diverse age groups
- Transitioned team to virtual instruction, maintaining educational quality during pandemic restrictions

Evoqua Water Technologies, Seattle, WA, USA

February 2019 – November 2019

Project Manager

- Managed \$5.5 million in internal asset development across three concurrent projects
- Facilitated coordination between Sales, Engineering, Supply Chain, and Site Execution teams
- Maintained client relationships through clear communication of project expectations
- Utilized Microsoft Project, SharePoint, and SAP to ensure optimal resource allocation

Evoqua Water Technologies., Boston, MA, USA

April 2018 – February 2019

Facilities - Manufacturing Engineer

- Developed production scheduling tool that effectively reduced Work-In-Progress (WIP) inventory
- Supervised first shift operations of the continuous deionization product line with 20 direct reports
- Utilized AutoCAD Inventor to design and implement a testing apparatus that improved product quality

General Electric Aviation, Rutland, VT, USA

May 2017 – August 2017

Manufacturing Operations Intern

- Optimized chemical protocols in closed-loop systems, achieving 25% efficiency improvement
- Authored engineering scope of work documentation for electrolyte treatment system piping redesign
- Managed waste recycling initiative, resulting ~\$36K revenue and 1.1K MT reduction in toxic waste

General Electric Aviation, Greenville, SC, USA

August 2016 – December 2016

Environmental Health and Safety Intern

- Managed \$5.5 million in internal asset development across three concurrent projects
- Facilitated coordination between Sales, Engineering, Supply Chain, and Site Execution teams
- Maintained client relationships through clear communication of project expectations

Dow Chemical Company, Charleston, WV, USA

May 2016 – August 2016

Infrastructure - Wastewater Treatment Intern

- Solicited vendor quotes for sludge dewatering systems, tank aeration equipment, and clarifier repairs
- Developed confined space entry and lock-out-tag-out procedures for 15 facility equipment units
- Authored fire safety protocols for both West Virginia Operations wastewater treatment facilities
- Validated sitewide storage tank compliance against West Virginia regulatory code
- Monitored SCADA system alerts and implemented appropriate alarm response protocols

General Electric Aviation, Cincinnati, OH, USA

January 2016 – May 2016

Facilities - Environmental Health and Safety Intern

- Managed competitive bid processes for water tank repair and swale ditch maintenance
- Developed and maintained network of key opinion leaders (KOL) across all GE Aviation facilities
- Facilitated training sessions on utilization of new environmental project submission platform
- Administered \$6M funding resulting in ~23K MT CO2 reduction and \$2M annual cost savings

General Electric Aviation, Baltimore, MD, USA

May 2015– August 2015

Manufacturing Operations Intern

- Investigated and resolved over 100 safety concern reports to ensure regulatory compliance
- Managed bid process for sitewide infrastructure initiatives, generating \$40K in annual savings
- Updated company respiratory protection program, conducting over 400 individual assessments

RESEARCH EXPERIENCE - WEST VIRGINIA UNIVERSITY

Cancer Research - Immunology

January 2015 – May 2015

Biomolecule Research – Aptamers

June 2014 – September 2014

Plant Biology Research – Acidic Soil Reclamation

March 2013 – August 2014

SKILLS

Programming languages: React, React Native, Rust, Python, JavaScript, NodeJS

Computer Software: Microsoft Office, Adobe Illustrator, SAP, Jupyter Notebooks, VSCode,

Languages: Russian (Intermediate), English (Native)
